WORLD-CLASS SUPPORT

One low price entitles you to support, documentation and our community forum.

SEARCH OPTIMIZED

Clean code and mobile-friendly is important for achieving the best rankings possible.

FAST PERFORMANCE

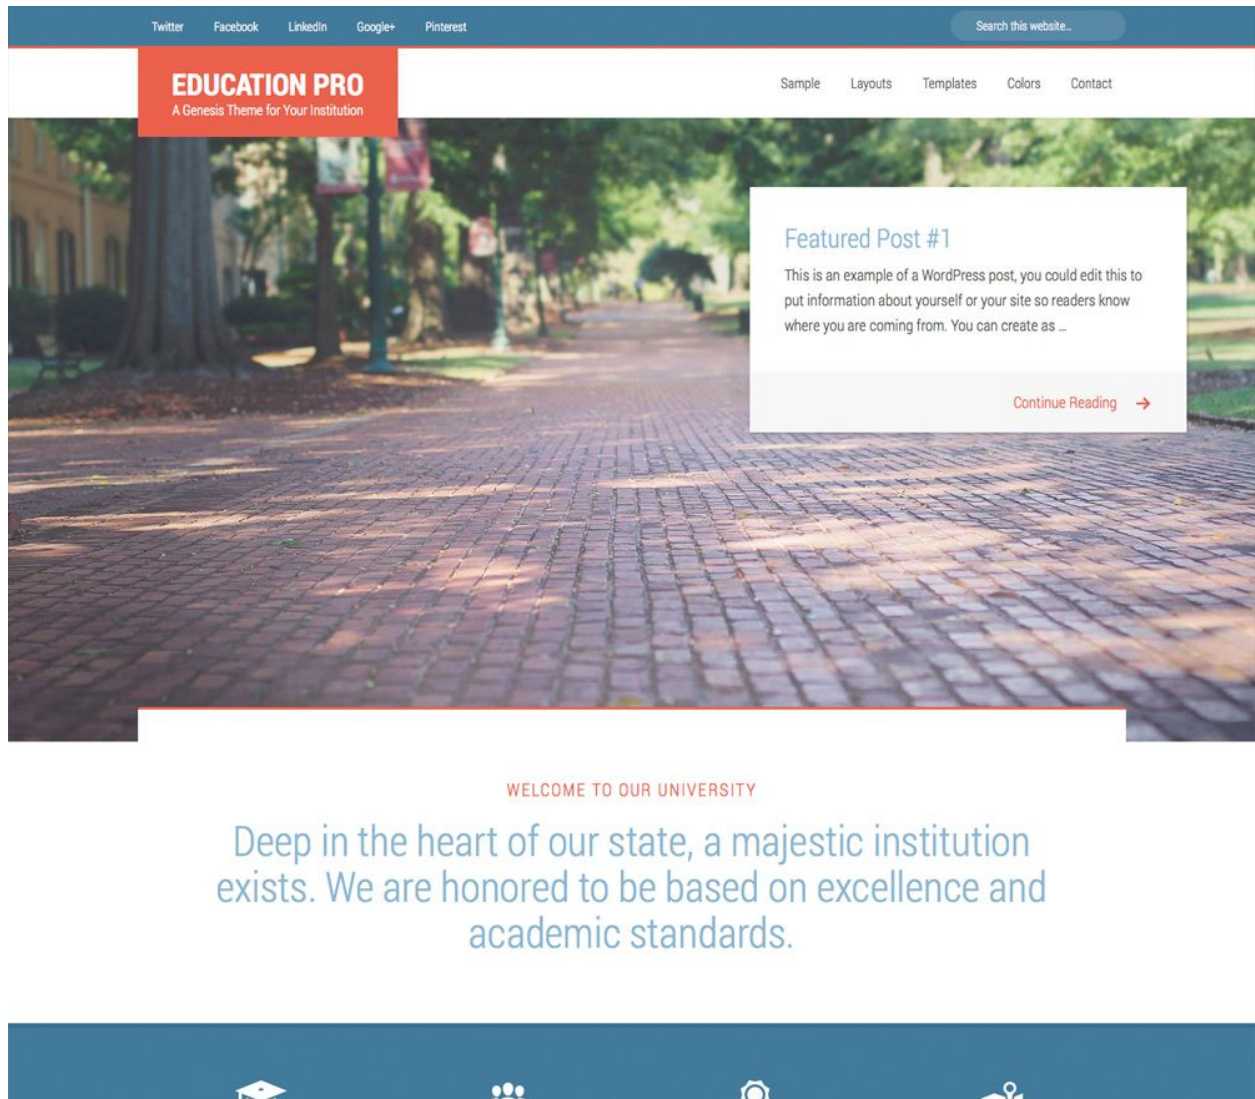

AUTOMATIC UPDATES

AIRTIGHT SECURITY

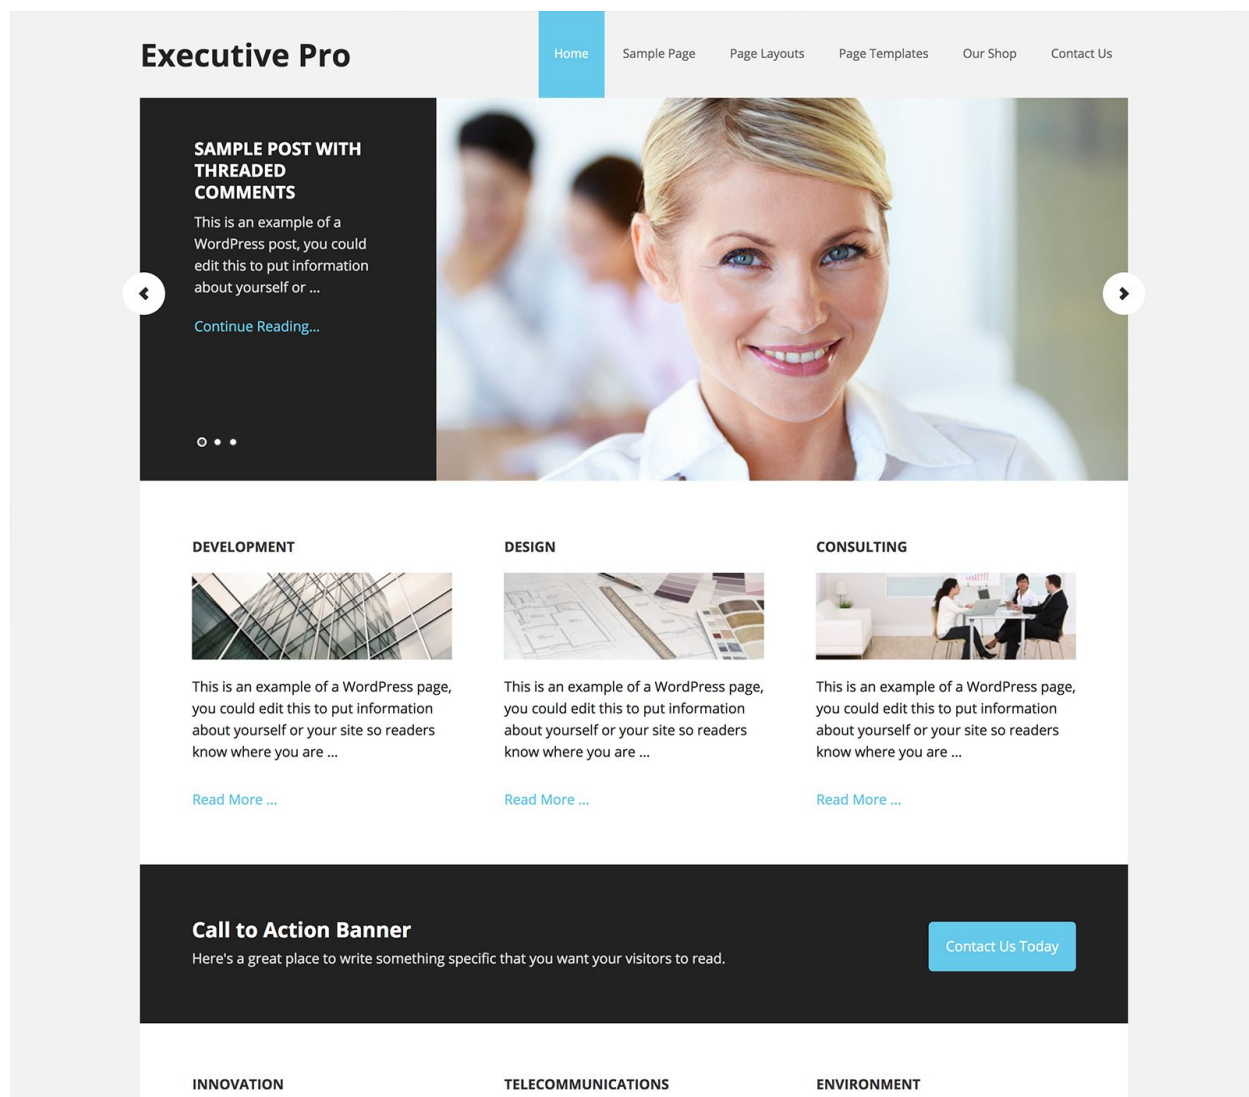

This theme very much fits the Week 2 Outline, complete with the large graphic and headline at the top, followed by the content boxes below.

<https://my.studiopress.com/themes/atmosphere/#demo-full>

Again, this theme is very graphicly focused, with placement for the headline. I also like the simplistic menu at the top so they can focus on the most important pages for the church, the preschool and the podcast.

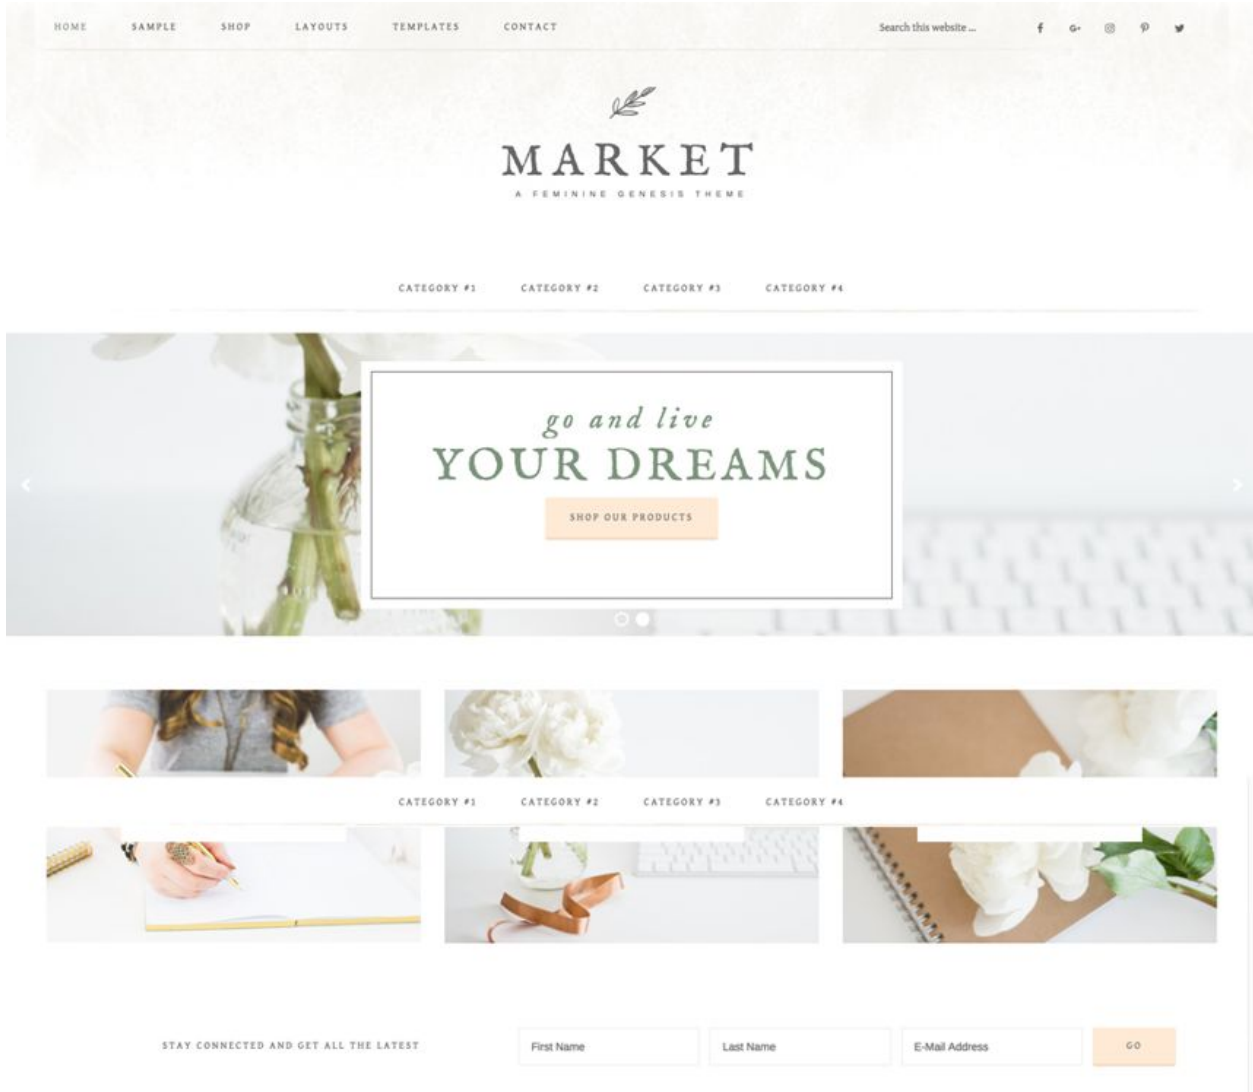

<https://my.studiopress.com/themes/education/#demo-full>

This theme reminds me of their current website, in that its clean and structured. I also really like the call to action banner since we discussed that we don't want to overload the users, but want to lead them to take the next step--either attend a service or reach out.

I also like that the header image is a slider so they can highlight their diverse community and/or the church and preschool.

<https://my.studiopress.com/themes/executive/#demo-full>

This is such an inviting theme. It has just enough imagery to showcase the qualities that make Grace Lutheran special, while offering a simple, easy to maneuver website. It would allow users to quickly find information on the church, staff, podcast, preschool, etc.
